

313 H. St., NW

Washington, D.C.

August 12, 1942

I have arranged to have a copy of your letter to me with today and he'll give

Dear Al, I've had a chance to read your letter and I think you've made a very good

copy of it. There are a few things that I'd like to see changed, but I'll

Enclosed is a carbon of my letter to Pearl re Green's contribution to

the symposium. I haven't heard any further, though you may have.

Today Sen. Elbert Thomas of Utah sent you his statement, with a picture

of him. I have drafted a statement for Reid Robinson, CIO vice-president.

His office here made a minor change and has sent it to him. They will send

you the statement as soon as they can, and if this can't be until Friday

they'll wire it. I'll see how it goes, however.

I have the dope on the training story and if I possibly can I'll enclose

it.

Here is the stuff on Thomas, which you may want for any biographical info.,

if you want any: field political science and international law, and famed

in both (no crap-I'd give you a long list of positions in the most

prominent societies in the field if I thought you could use them. Authority

on Japan, to which he broadcasts regularly in Japanese (and this I thought

might sometimes make a story); major in reserves (Utah N.G.). Committees:

chairman, Education and Labor; member, Foreign Relations, Military Affairs,

Mines and Mining, Pensions, Fiscal Affairs of Government, and to Investigate

Conditions in the Merchant Marine. So you see, he's really a prominent man.

About the training story: It is impossible to get a by-line within the time

allowed because it would take much longer than that to clear it through the

various places through which it should be cleared. In addition, there are

many things I think we should say that couldn't be with a by-line. So, though

I'm going to keep trying, don't expect one.

I have arranged to give a copy to the guy I was with today, and he'll check it for accuracy and make any suggestions he thinks would help. He'll have a copy of there can be a by-line. He is Capt. Turney at the Army War College.

About Robinson, if you want any more data on him, it should be available through Saul Mills at the CIO Council in NY. They should also have a picture of him.

I'll return the training pictures under separate cover and save some postage. I hope. The caption material has all be checked for accuracy, as was the page attached, and they are all okay. However, as you will see, there

be no implication that elaiasthenics have been dropped, because they haven't. I guess that's all.

Harold Weisberg

Here is the stuff on Thomas, which you may want for any historical info. If you want any field political science and international law, and I have in both (no extra) I'd give you a long list of positions in the most prominent scientific field in the field if I thought you could use them. Authority on Japan, to which he broadcasts regularly in Japanese (and this I thought might sometimes make a story); major in reserves (W.G.). (Committee: chairman, Education and Labor; member, Foreign Relations, Military Affairs, Mines and Mining, Veterans, Fiscal Affairs of Government, and to investigate conditions in the Merchant Marine. So you see, he's really a prominent man. About the training story: it is impossible to get a by-line within the time allowed because it would take much longer than that to clear it through the various agencies through which it should be cleared. In addition, there are many things I think we should say that couldn't be said by-line. So, though
