Dear Frances,

Thanks for your letter and the check. I know it was all a mistake.

Please tell Al he was so long letting me know about the girl guerilla story that first of all it has been so well covered in the press (and will be in the reels) that I think it is now not as good as when I first wrote about it. I think we'd best forget about that. Also please tell him I think I can get a better 1st. person story along the same lines from another and comparatively unpublicized member of the same party of student-delegates, the lieutenant who killed 152 Nazis with 154 bullets. I have a tentative okay on it at this end, and what remains is for us to think if there is anything in particular we want. I'm to get in touch with the press officer at the Soviet Embassy on this in the middle of next week, and I think we could get a good, different, personal story on the Red Army, the Soviet peoples and their resistance, and something on the cementing of relations between them and us, which is the purpose of his visit here and a delegate to Mrs. Roosevelt's ISS.

Yours,

Harold Weisberg
