Dear Al,

Please bring me up to date on the prostitution story situation, if there is anything further immediate here.

Also, please let me know whether or not Schubert sent you an approved copy of the tank-block tester story. I spoke to him today. I left a carbon with him for them to take a glance at, but there may be some changes made by the people at the camp that will have to be approved by the BPR here is DC. is not certain. There have been several minor hitches which I'll not bother you about now. I am having lunch with the Profficer of the Camp tomorrow and hope when I leave everything will be striaghtened out. I made a couple of calbs to the camp today, and think they may do some good.

I still haven't seen any proofs on the FSA truck-patch trooper story. FSA is wondering whether or not any changes have been made, and if so, whether or not they should or will be shown proofs.

Re your letter: Okay on the guerrilla situ tion. You'll hear from me further when I have something to report.

Re symposium: I think you boys are near the end of a limb. You have a question, but is it controversial? Is there any no-appeaser sentiment that we should notn "do business " with Russia after the wwar? If there is, its negligible. Likewise, how much can be said in the negative without sedition?

In addition, you have made committments with big people you just cant run out on. I will want to discuss this with you when we get together, but I wish you'd think it over. Your situation is the same as "should we accept help from China", and the existence of a negative side is roughly the same.

There is no sincere, patriotic "other side", Al. Likeiwse, there is no stigma or labelling involved. These are freely expressed sentiments of

outstanding, nationally recognized leaders, and it is their opinion, not yours. You didn't ask them to say what you wanted; they said what they

wanted. I insisted in each case that each say exactly what he thought. Where

I drafted them I first got them to express opinions which, as you know, I then gave them and they approved. So I think you are making a problem out of nothing and throwing something terrific away.

Otherwise nothing new.

Please try and let me know when you are coming. Don't forget to bring Helen.

Yours

Harold Weisberg
