and at the table to decide a Pro-小学家的 网络白月 Trail out of norsequeupaeto au avio Juani arre an norsequeupaetonali scingitarijaiscrificas Dear Tony, 23 Feb 80 Sitting here in the sunshine of a drought - threat end Area, wond-

ing whether we will have water on mough to get us though the coming year, I am also wonder whether to thank or to chide you for having had a popy of Chapter X forwared to me. The theat of a waterless existence is more yivid than the possibility that I The threat of can be of any kaspy help to you in your search for the identity of the putative Brother Bishop. I will try to put my worries to one side for a moment though and see if I can't make a stab at saying something worth while,

Most of my difficulty with Chapter X stems from the paper itself not with the problems it seems to address. If a case officer had turned over an analysis of the quality of Chapter X for my perusal I would have put him on my out-placement list. Just too many quest Let me put a few of themx so that you can see what is bothering me. I am sure that you have thought of them, and that it is probably impossible at this time to obtain answers, but what the hell Just too many question

here they come. l. What was the background to the initial approach to Veciana? Did it, just occur to Fonzi (or whomever the char was that ddd the 'investigating') that it would be wotthwhile to tap this guy? Was it routine, or did someone provided some sort of a tip? & March 1976 was not the beginning of this thing. What was the beginning?

動削 ON:

2. What were the details of Veciana arrest and trial? It seems of that Fonzi gives us the benefit of Veciana's speculations as to that who framed him as if it were a cardinal fact that he was framed. It is a pity that the committee did not see fit to wonder this same thing. Out super judicial system is not the best, to be sur but it does keep rather good book. Has anyone chekked the record to for hints as to Veciana's character and activities? I do not see how you could proceed much frefetax further down this path without gettin hoxx a hold on this whole episode. He would appear to be either very greedy or terribly stupid, or both. Greedy if he was into druges trading and had just recently been the beneficiary of \$253K and stupid of he had that kind of cash and could not afford the best lawyer in the Mark US to help him beat a bad rap.

the investigation, Congress had a tight grip on CIE's At the time of 114 throat and could easily have confirmed the existance of a disburgal

ofothat size. I locan assure you that payments of that magnitude stand out like camels on the Saharan horizon. In 1973 money was very tight. The Agency was doing dog's work to flush money down the Vietnam drain and was cutting heavily into the flesh of operations the world over. \$250K to someone who wad never been on the payroll but had been on the 'right side' pushes beyond fantasy into madness. But don't take my word for it. There are ways of making certain that the payment was zninxer made or not. Even threat though I wknow that such a payment was never made, it is in a important for your came to focus on kt. . 13. I. I.

4. bithen, what did Veciana do with the money? Chapter X is just terribly remission not hounding him on this one. Not to have

done so indicts the entire report. 5. Did Bishop speak Spanish? If so, how well? Did he have any sort of accent? How good was Vetiana"s English? & xx Did he have the sense to detect any linguistic peculiarities?

recommendetton to Bishop? First it might have been Lobo (whom

NtI handled from early 1963 to May 65 at which time he moved to Spain I was the highest ilevel heteven reached in the Agency and at the time ilevel has pretty much of a first Field Black, though he had con-vinced himself that I was Dick Helms. Fact.) then it was Lopez-Fresquet. Why did he think these things? Did he ever, over the course of 100 meetings, try to ferret out an answer? meetings, try to ferret out an answer?

7. Third parties were used on a number of accaisions to set up meetings. Who were they? Give us one name so that at least there is one confirmation that a Bishopesque person dexisted.

5518.55 Intlate 1960 Veciana and Bishop ran some very successful operations on peso destabilization. What were the mechanics? Who Eles else was involved? Press plants. Radbo commentaries? Did they use Lopez-Frequet? How often did he meet Wishop during the course of these operations? the course of these operations?

How could Dave PHillips, thex if he were Bishop, free himself from the intense demandssefxx of the Pig Operation which was in full, frantic swing, at that time to sneak into and out of an increasingly hostile Cuba to devise and run these operations.? One thing you mix have learned about the Agency is that once one had become a Chief, he does very little Indian work. No one would No one would have allowed Phillips to decend from his position, with all the Pig Plans cluttering up his mind, to scuttle over to Cuba to run a couple of dinky currency operations. Things just don't work that way. areas int

10. During this period, Bishop gave Veciana Kails name and that of a "CIA employee". Who was that man. What was his position? Very dubious to say the least, for if there is one thing that even anxaffx officer's as skix sloppy as Phillips don't do, is gratuitousl hand out the names of colleagues. Kurkterx Further, until the late 60's dt waxx was <u>extremely</u> rarethat the term CIA, or even Agency would be used by any of the officers in referring either to their wax own or a colleague's affiliation. This tradtion tradtion began to break down in as a result of the Pig, but did not erode entirely until the mid-70's, and then only because of the Angelton scandal.

11.0n p. 39 the implication is clear that Bishop was still in Havana in at leat mid-61. Where did they meet? Bishop stated that the had decided to knock off Castro 'the only thing left'. Was this a personal opinion? Did he claim any offical authoriztion? Was it expressed over drinks, in the park, at night of in the daytime? Was there any followup at an any any any ime by Bishop? Was 't' it a little dicey for Phillips to have been wandering around in super heated Hayana? I ask only so that you can catch the full absurdity of One, the statement or two the investigator's handling of the matter. No.staff officers were in Cuba after the Pig. We may play fast and loose with the lives of others, but we take care of our own. It is obviously super-critical to get this matter straightened out. The only way that whit this portion of the deposition can be read is that Bishop was weineCubafafter.thetPig.mEExxElse why-all the trouble on Veciana the sub-tfor-Bishoprtothaveisekx soughtshim out in Miami. My view: floring parrantohorseshit. bad now encomes with the off the solution the first same and the same

12. What were the details of Veniana's employment in La Faz? Surely teh the committee if it would go to the trouble to interview Veciana's colleagues in La Pazing know that AID doesn't work a t work all that hard, ybut if the had not done banking work, wouldn't there be disomeone around that could have been talked with? State ought to \circ 1 $j \leq l^{\prime}$ 連邦ショナ

Alsomeone around that could have been talked with? State ought to have had some fecord as to who wer was manning the passpot office at the time.x whec Four years are a long time of bill flow and for life from the solution of the solution of the solution of the solution of the solution dinksville. What sort of 'intelligence' information did Bishop provide? How often? When precisely did Bishop discover the t his tarx? op was been fouled up by Veciana' associates? It's

in Dallas at the time of the the bioswald sighting of What was the substance of these meetings? We know that one took place in the building of the blue facade. Where tween the others sitwas this set of meeting arranged directly by Bishop, or through maxasone of the tire third parties? un-jennel mi

14. What was the substance of the meeting which took place in Miamis, a couple of months after the assassination?' When exactly did it take place? which hate to belabor it, Tony, but in any matter of importance it is always necessary to get all the xktx little bitty stuff. It's this material that makes or breaks a case. All we are getting "Chapter X is chaff flying xxx around like straw in a Kansas wind. metres in iter of

a pd 15. Why did; Bishop think that a Cuban IS officer would put himsel on Castro's hit lists by confessing to a meeting which works would implicate the fluban's in the assassination? I thought that Veciana was a Cuban note a Kraut, wintage 1933. Did he not advise Bishop that it would be unlikely that Ruiz would take a bucks? gDo you really think that this was likely? If so, then Dewer's must be putting out a larger 150 proof label that I have never seen. Please send mea fifth.

17. An irrelevant but fun question: What would Sam Kail do after he learned the name of the CIA officer who was using his name? Did he tattle? Did he punch the guy out? Did he had the slightest professional regard for the WH case officers of that era, but clodhoppers that they were, they had no need to resort to thekind of thing that would have put an end to an officer's plush Havana assignment. Why did Kail say this? Otherwise his meagre deposition is OK. He was working out of OpaLoka and since this was an agency facility maintained as a community effort, of course we paid the bills. The bleeding insinuendo's are dumb, especia in view of the glaring professional errogs of the investigation.

18. Not a question, just a fulmination. You can trash the entire turgid glop involving Doseda, Alverez, Ruiz, the Shrink and Mama Veixex Veciana. If I didn't know better, I would tend to believe that Fonzi was running a disinformation op.

19. What earthly good would it do for Veciana to lie about Mot knowing Phillips? How would that put him back into Bishop's good graces so that together they could march once again together against the infidel? Para 173 is the stuff of MAXXX Mary Jane with a Jack Daniel's chaser. How could anyone keep Fonzi on the payroll after ingesting such a series of gargage laden inconsistences?

20. Why was it necessary for Phillips who was not in the Para military business and who was retired and who had been straining his brain to keep in the limelight to have remembered Vecians's name? The fact is we tend to referm always to our agent's by their crypton y more often than not, forgetting their names. We even referred to Castro as AMTHUG not as Castro. I would have been suprised if phillips had known Veciana's name even if he had heard it some ten years before. To base part of one's case on this kind of

I am not going to comment on the back and forth involving Cross Gupton, Mx&xxxMcConeand the ineffable B.H. Just too much pseudo legalistic horseplay to make it worthy of attention. The only time B.H. Could have worked on a daily basis with KRikkpxxx Phillips would have been before October 1961. After that the man was in Mexico city padding about in his usual bungling way.

L have the same kind of feline mind that is bedevilled by curiosity as the mext. Wom thyeald an inch on it. But I have lived too, long to believe that wouriosity alone gets one very far. In less one were to move to the live of the liv strongery far. Unless one were to go to ground on the kinds of questions of the kinds of questions of the kinds of questions that the seriously. Rensonally, I wouldn't that take step one of whether, spending acweek or so with either Fonzi or Veciana' or both in that order. If the had something bottom to device the both in that order. If I had something better to do, I would do it first, for by now things are so hopeless bothhed that the Lord himself couldn't inx untangle it. The combination of incompetence and systemic lying is unbeatable. I couldn' beat, that much, as our friend Sadat would put it, is for sure. TETE

I am sure that I have been of no hekex help, Tony, and if I have made a bad thing worse, I apologize. You seem to be a fine fellow; a freight friend of a friend of Bob Crowley can't be all bad. As I noted, I would break a lance to make sure that the public knows what crowd of bunglers most intelligence organizations are and that they fought to be watched over with a mean-spirit and the coldest everpossible for doubty if there was an officer in the are and that they ought to be watched over with a mean-spirit and the coldest eye possible if I doubt if there was an officer in the service whom II despised more rigorously than I did Daye Phillips. He was the epidtme of the fixtx foolish, flannel-mouthed adventurerers who gave a bad name to a business that is inherely unstable. But I can't hang a rap on him on the basis of Chapter X. Sorry that all this has been put together so inelgantly, and that shoolby, one of my preceptors advised me that of all the fallacies an the book the worst is to take seriously what which whould not
