PROPOSED FURTHER RESEARCH IN "BISHOP"/PHILLIPS AREA (as at January '81)

See <u>Mrs P.</u>(she has agreed). We already know that her account of her husband's movements, made casually and spontaneously with no connection to the "Bishop" affair, contradicts Phillips' version of his movements. It places him in relevant places at times consistent with Veciana's account of "Bishop's" movements.

Substantiate that Phillips was retired following <u>adverse psychiatric report</u>, Pursue further <u>Former Diplomat</u> who is already co-operating, and appears to be excellent route to other relevant officers who - like himself served with Phillips at relevant times.

Through latter, see Former Legal Attache in Mexico City.

And also Former Naval Attache in Mexico City.

Identify "<u>Mr Melton</u>", who trained Veciana at Moa Bay Mining Co. office in Havana. Strong lead on this now being chased.

Interview Julio Lobo, who is most likely candidate to have brought Veciana to "Bishop's" attention for recruitment.(Former "Sugar King" of Cuba - now in Spain? See on way to UK?)

Fill in gaps on <u>Virginia Prewett</u>, reporter who allegedly worked with "Bishop".

Check A.I.D. lead.

pevelop "payoff" info as proposed by Corson.

Check and follow related areas and personalities in Phillips <u>Chile</u> history. <u>Hunt</u> in Mexico(on basis of new information obtained by A.S.) Obtain <u>classified Mexico report</u> produced for Assassinations Committee in Congress(believed in private bands and feasible).

Leads not directly related to "Bishop" which demand at least initial check: Mob figure who has contacted author; & Berlin map lead.
