Just finished telephone calls conversation with Sylvia at FRIDAY. She clawzx called me following my conversation with Bayer in which I told him I wouldn't do any mpre work unless I got all the money that was due me and that I wouldn't handle the Fittman story unless I was promised a sum in advance. She claimed they ewe me for one week less than I claim and that as soon as she got my letter to Mackenzie of the llth she made out a check and put it on Gillmor's desk where it has been since. I told her I was still owed \$8.25 on the stocking story and the rest is covered in my letter. She didn't know when I would get my check.
