

7/27/42

Monday night

Dear Mr. Weisberg:

Here are several new projects: can you get from the Surgeon General a complete list of the Medical Department Officers' Recruiting Boards, with street addresses, and members' names. Also the area covered by each board.

An exam for commissioning doctors is scheduled for August 10-13~~th~~, which is too late for us. However, can you find out if another similar exam is ~~scheduled~~ at some ~~later~~ future date. Also, I understand that one reexam will be permitted those docs who flunk this test. Can you get details on that.

① Can you find out if Volunteer Officer Candidates who are graduated from Officer Candidate School are ordered to active duty immediately. (These are the lads who are in 3-A but volunteer for a crack at officer candidate training.) Also, what salary do they get while they are studying at OCS? Who pays for their dependents during that period?

✓ Did Lehman speak to you about charts from the War Department of insignia, a map of locations of Army camps, pictures of medals awarded by the Army, insignia for the various arms and branches, insignia for the various armies, (such as Second Army, Fifth Service Command), etc. My own feeling is that the more we can get of these the marrier.

It's quite likely that I'll be getting to New York for next week-end (the one of August 8th), when we're supposed to have the manuscript. I plan to leave Fort Knox on Wednesday evening, August 5, and stay in New York till Saturday night, August 8. Any stuff that you mail to me ~~the~~ after this coming week-end should be addressed to Lehman unless I wire you to the contrary.

Best regards.

*Morton Yarnish*
