November 8, 1942

Dear Max,

After my return I checked with Major Davidson and learned what you know, that the last chapter of your Army section had been returned to you okayed.

Major Davidson was concerned about any statements that might appear in the book noting the Army had checked the contents. They are worried about this, generally, because they don't want anything to appear to have the official okay. I assured him that you understood and wouldn't make this mistake.

On the 24th and 28th of October I submitted bills totalling \$47.76. When can I expect payment?

Now that all the stuff is in, what is the schedule on the book? When do you expect it to be on sale?

Sincerely,

Harold Weisberg
