Dear Sir, I have tried to get some pictures for you and let me know whether you are getting them. I have tried to get some pictures for you and let me know whether you are getting them.

Enclosed are the approved text of the Toughening For Invasion story, the approved captions, and a very rough draft of the prostitution piece.

I am going down to Ft. Belvoir tomorrow with copy on the tank story and I am hopeful that I'll be able to mail it to you Saturday, maybe even tomorrow.

Today I took a carbon to ex-Lt. Schubert-today Captain S. and let it to be approved. Also today I got some pictures from the Signal Corps for the tank story and I hope I'll be able to get the rest but one at Belvoir.

I am going to return the INS mix on the invasion piece under separate cover and save you some postage. You will notice that they took care to get the Army's approval for publication.

I am not at pleased with the prostitution piece, but after reading it decided the best thing to do would be for you to look at it and make any suggestions you'd like before they go to work on it.

over I expected them to begin with one or two good anecdotes and then the story in with that. I found where you can get some good anecdotes now claim not to have any-that they'd have to fake some, and I suggest you send someone over and get the anecdotes, send them to me with this copy

(it has to be returned) and then maybe we'll be able to get something out of it. Either that or maybe you can get the anecdotes and rewrite the thing to suit yourself and return it and the rewrite to me for approval here.

There is only one picture they have here that you might use, and it is with the invasion training pictures. Other you will have to pose or get from the services. You have never answered me re Wide World. They have some raid

and let me know whether you are getting the. I have tried at several other ~~used~~ places here and haven't been able to get any suitable pictures. I tried to get some ~~clips from the Army's well known~~ movie on the subject, but failed.

The guy with the anecdotes about the ladies is Dr. Goldman, who is in charge of the Bureau of Special Hygiene of the NYC Health Dept.

I think that clears up on everything. How about squaring away with me on the various things?

Yours,

Also today I got some pictures from the Signal Corps for the

P.S. I tried to see you today by arranging to stop at the Army on

the way to Public Hall. They had changed the parking regulations recently

and where you used to be able to park until 4 pm you now cant park after

3. So I got a \$2.00 ticket. A fine thing!

By the way, are you interested in a good expose, better than your piece

on GLK Smith? With good, extensive documentation? I've got one if you are.

Also if you are not interested I'm going to

try and sell it elsewhere. You can get some

I'm sending this special so you'll have it first thing in am. If there is
