Star to the control of the

Dear Al,
To nose hit your saxwax son, blook, noiding his bar havingnt gider in

Enclosed are the draft of the tank-block buster story and some caption material. The text of the story has been approved by everybody except those who are most important. That is, it has been approved by the officers and men directly involved -by the whole gang of 13, in fact. It is in the hands of the Fort PRO and the Army BPR. I should hear from both within a gradule of two. You understand this is not an okayed text. I'll send that to you when I get it.

I have selected and hope to get enought pictures so we'll only have to make one, and I have made arrangements for that. They should be in my hands by the zarize middle of next weak and I'll send them then. I'm sending this now because I anticipate no changes and I thought you'd like to get started on it.

Instead of paying for the taking of pictures (of course, those we get from the Army are free) at the fort, I've agreed to reimburst them for their expenses when they sendma a bill and to try and get them some super X l6mm film which they need to record their experiments and have some difficulty getting because of the red tape. The latter is up to you. I hope it is okay.

It seems to me the camp itself might make a good picture story. I'm getting some shots already taken from the Army and I'll show them to you and tell you th story when you are here.

When the story comes out there are lots of people there who asked me for copies, and the officers would like some. In all, they'd like 100 copies. I told them I'd ask you if you could, but that if you could you'd have to

send them to one person who would have to undertake to distribute them.

I was agreed that you should send whatever number of copies you can spare to Major C.R. Deman. He would distribute them to the officers and men directly involved and in addition, would lace them.

I was agreed that you should send whatever number of copies you can spare to Major C.R. Deman. He would distribute them to the officers and men directly involved and in addition, would lace them.

I was agreed that you should need be people and, pertipularly the soldiers will be able to addition, where people and, pertipularly the soldiers will be able to a distribute we not the should not pertipularly the sold that it is a sold the sold to should we should the officers and the sold that the sold the sold that it is a sold the sold that the sold the sold the sold that it is a sold the sold that the sold that the sold the sold the sold that the sold the sold the sold the sold the sold that the sold the sol

I have selected and hope to get enought pictures so we'll only have to not below and I have more for that. They should be in my hands by the medits middle of next week and fill send them then. I'm sending this now because I inticiente no changes inticional factorial lies to get attreed on it.

.di tex I ned wov

inareas of paying for the taking of pictures (of source, those we get from the army are free, at the fort, 've agreed to reighburst than for abeing access when tony sendme a bilt are to try and get them some super X lown film which they need to record their experim ats and have come friently getting because of the rad tape. The isteer as any or so we.

is seems to me the same itself might move a good elobered story. I'm getting court is the clare to the same to be a sheet of the training with the story when you are here.

then the story comes out there are lots of people there she ask a me for a strip the life that the local like the local like that the local like the local like the local like the local like the local loca
