9/21/91

Dear Ms. Martha,

I appreciate your letter of the 14th very much and thank you for it.

If your belief that I must have feared for my ^Alife reflects a fear you now have, be assured that I have never had this fear and there is no reason for having it now. I do not.

I suppose that I believed there was nothing to be afraid of.

If you intend videotaping the coming A & E series that begins the 27th for me, I'd appreciate that very much. We do not have cable and the friend who does for some reason we do not understand can't tape from that local channel.

I have some knowledge of what that series will include. When it was begun several years ago I refused to appear on it until I was assured that it would not undertake to pretend to have solved the case. Then they added just what they had promised not to do to ~~what~~ ^{what} they began with. I've seen but have forgotten this show, with that addition. It ran for an hour and a half.

I know that this will run on five consecutive Friday's beginning the 27th but do not know how long each will be. However, even if only a half hour, they have added much to the original show. I'm told I'm to be on the fifth one. *Old tape.*

While I have no reason to believe that this will be a good and an only factual series, I would appreciate the cassettes because I will look at them and then I'll give them to the local college where all my work will be.

I'll be glad to pay you the cost of those cassettes, too.

There were, as I now think about it, some threats, but they were only an effort to intimidate ~~me~~ or perhaps make us worry. If anyone had had any such intentions they'd not have warned me by threats.

Again thanks, and best wishes,

Hardisty
