Dear Dr. Weisburg:

Several years ago, I was a student of Dr. David Wrone. Since his class on the assassination of JFK, I have been a devoted follower and am constantly passing on information to my students, friends, and colleagues. Sometimes, however, I am hesitant since I no longer possess the most accurate of information. Consequently, I am writing in regard to acquiring a set of your White Wash books. I am willing to pay full price, plus postage and handling. You have only to advise me on the price, if your books are still available.

I trust your valuable work continues, amidst the obstacles. I commend you for your integrity and conviction in getting the facts concerning the JFK assassination across. I will be anxiously awaiting the news as to the availability of your book.

Sincerely,

Susan G. Casper
