Dr. Mr. Whisbey,

I would have ordered Whitewash
but I already have that in paperback.

I was 19 years old when
President Kennedy was assassinated. It
left a profound effect on me and
has haunted me ever since.

I have lived through the
assassinations of Robert Kennedy & Martin Luther
King. For the past 10 years I have been
reading everything I can get my hands on
regarding the assassinations of the 3. I
find most of the material I read very
disturbing & have come to believe the
Warren Commission false.

I commend you on your work
& you are truly a brave hero for our
times to have the courage & stamina
to investigate this & make it public. God
bless you & your efforts.

Sincerely, Gary L. Peters
