Dear Mr. Weisberg;

Recently, I have had an opportunity to speak with Howard Donahue and conveyed to him that I am unable to agree with him on his theory of how President Kennedy had been shot. I further told him that I had documented evidence that he was right in his theory that the head shot from the rear came from a lower angle but not from the AR-15 in the hands of the Secret Service. He replied, "you have this documented?" I answered, I do!

He has asked me to send him some of the documentation that I had and he too was interested in my response to the Journal of American Medical Association. (copy previously sent to you).

Having been an investigator in Law Enforcement for over 30 years now, I am at a place in my own research of the Kennedy Assassination to begin to put together facts and figures that lean very heavily in the direction of your "Whitewash" series.

I have been encouraged by several people here on the west coast to put my findings, opinions and conclusions on paper. I had started keeping track of them over the years and since I first talked to you, I have started applying what I know, what I have learned from your series of books and what I have gleaned from others onto paper. I am calling it "Square peg for a Round hole"

I would like to send you a copy of what I have written so far, but after our last correspondence, you sorta snapped my head off and I am rather gun shy taking up too much of your time. Maybe I'm being too sensitive.

If, and I do mean If, I get the oppartunity to write my opinions and conclusions based on information that I have put together, May I have your permission to quote you from your writings, giving the title of the book or books, page number from which quoted. And may I copy information from your copies of documents within your series of written documents. Quotations will be accurate and exact as taken from your text.

Because it says the way I really feel, I am sending you a copy of a page from my book. I hope and pray that you are not offended. I have never met you that is true. I have read you and I am truly impressed. I have watched you on interviews. You sir are an inspiration to us all.

Thanks for putting up with me again. I await your response.

Respectfully submitted

Round Hole

CONFIDENTIAL : NOVEMBER 24 , 1963
TO: President Lyndon B. Johnson.

"The thing I am most concerned about, and so is Mr. Katzenbach, is having something issued so we can convince the public that Oswald was the real assassin." J. Edgar Hoover

CONFIDENTIAL : November 25, 1963
TO: President Lyndon B. Johnson

"It is important that all of the facts surrounding President Kennedy's assassination be made public in a way which will satisfy people in the United States and abroad that all facts have been told and that a statement to this effect be made now.

The public must be satisfied that Oswald was the assassin; That he did not have confederates who are still at large; and that the evidence was such that he would have been convicted at a trial." Nicholas Katzenbach, Deputy Attorney General.

They had spent, like the Warren Commission Hearings and Report, Millions of taxpayers dollars and said nothing at all new except "there is evidence that a Conspiracy did in fact exist"..... so now what? Absolutely nothing.

I felt absolutely abandoned again, just like the first time. and that was the day I heard General Curtis LeMay say "The President of the United States is Dead."

Before I go too much further, I would like to take a moment of your time and this space to acknowledge a very Special American Citizen:

Those of us that call ourselves investigators of the Kennedy Assassinationists have been helped greatly by the writings and pursuits of one very dedicated American who for years has gone un-noticed and un-thanked. He is not only an investigator, but a pioneer. He is the first Author/Investigator to challenge the United States Government under the "Freedom of Information Act" and was refused information. He again would not stay down and eventually won "our" battle for release of certain information. For the rest of us, what he did made our research a lot easier. He was the pioneer.

Mr. Howard Weisberg.

Mr. Weisberg wrote 7 books on the Kennedy Assassination and all were so controversial that none of the publishers would publish his works. Why? because Mr. Weisberg said it like it was. The two quotations on the cover of this book by J.Edgar Hoover and Nicholas Katzenbach were first brought to light by Howard Weisberg and this type of revelation was so hot and so controversial that the publishers of this country turned their backs on him. Howard finally produced his own writings and they are available through correspondence with him. 7627 Old Receiver Rd, Frederick, MD 21701.

The Government of the United States has LIED to us and has hidden the facts of the Kennedy Assassination from the American People and have deceived us since the moment the call was made setting up the assassination. The Government has mastered the deception technique. But, men like Howard Weisbers have braved the threats and intimidations and have stood fast for what they believe and what is right. Mr. Weisberg, I commend you sir.
