Harold Weisburg

Dear Mr. Weisburg

Recently I read the book HIGH TREASON. Your name was listed in the Bibliography and Author Index along with the name of several books. I have read White Wash volumes I & II published by New York Bell. I have been unable to find your self published book titled Post Mortem. Would you please send me information on where I can purchase your books.

I have been interested in the Kennedy assassination for a long time. I'm 32 years old. One of my first memories from childhood is the day President Kennedy was assassinated. I had just turned four years old on November 17, 1963. Five days later I was with my mother and my sister shopping for groceries when news of President Kennedy's assassination was announced over the intercom at the supermarket. I can remember how upset everyone was, but being only four years old I didn't really understand what was going on.

As I sit here and think about the Kennedy assassination, it's ironic that most of the people in the United States and around the world didn't know what was going on either. The Government told us that Lee Harvey Oswald acting alone, killed President Kennedy. I grew up believing the "Official" version. It's sad that a whole generation of Americans grew up believing a lie. I guess I am telling you all of this because I want to say "Thank You" for your diligent effort to expose the truth of who really killed our President. I admire your courage and tenacity.

Please send me information about where I can buy your books. I've looked everywhere!

Sincerely,

Teresa Robinson
