

Dear Harold

9/8/92

I have just finished reading White Wash I and Post Mortem and I can honestly say after reading both amongst the many J.F.K. Assassination books I've read, nothing compares to yours! I am extremely puzzled as to why you stopped writing especially after the rash of new "useless" books since the UN-OFFICIAL J.F.K. movie. (Which in my opinion should be named "J.F. GARRISON" what a waste of 3 hours. Stone could have let the un-aware, uninformed public in on what's really important as you put it "WHITE WASH". I guess you're the RARE breed of authors who are NOT in it for the \$, as you mentioned in Post Mortem. What brought me to your books were references to them in other books which all highly praise your work as well they should. Two new books "Texas Conspirators + HIGH TREASON #2 are fair compared to yours however people are buying them!

Harold as a devoted fan of your writings I beg of you to "let the truth come out" write another one. This is an Election year in which "Bill Clinton" could possibly win! He has stated he would re-open the case.

Also I would like to know your opinion on Tom Wilson's alleged Photo-Enhancements which he says

Proves a shot from the front!

I hope so! I belong to the Assass. Com-
mittee and all they've mentioned of it is
last years convention. He should
contact you if its true, what a
team to finally put the nail in
the coffin!

Has your book "a Tigers something"
ever been published??

Don't give up Harold I'm sure we
"Meaning all committee members" Approx
600 of us could find a way financially
to back you up. I would invest in
your work personally, I own my
own business and I'm not rich or poor
but anything I can personally do.
Please let me know. I am a dedicated
reader & I'm running out of your
books!

Have you ever written to the committee
they praise you in their letters and
claim you've read 70% of the new
declassified materials. Well if you
don't do any more writings I
understand after all the bull-shit
the GOVT & Media has put you thru -

and remember I'm one of your
biggest fans Thank you either
way.

Sincerely
