Dear Mr. Weisberg,

You are the first author on the Kennedy assassination that I have been compelled to write to. I have seen you on TV many times, and I think you are a very gifted investigator.

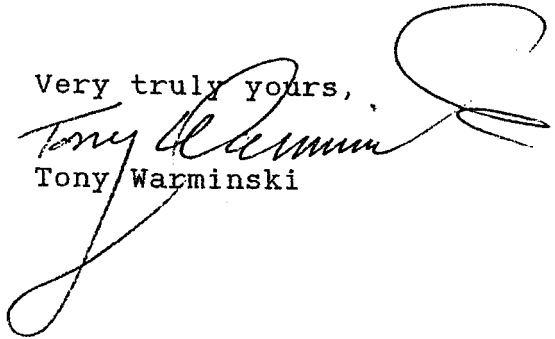

Although I could write many pages of questions that nobody seems to address on the matter, I will instead pose a question to you that intrigues me.

I am sure you are familiar with the Mooreman photo which clearly shows a man dressed in a police uniform, standing in a shooters position, facing the presidential limousine from the grassy knoll at the moment of the fatal head shot. I was shocked at this most convincing and indisputable evidence, and I cannot fathom the fact that it hasn't resulted in the reopening of this case by the Government of the United States. Have you looked into the matter?

Also, I would like to have some information on where I might find your books. I can't locate any here in Glendale. I would appreciate having a catalog sent to me if one is available.

Best wishes for the new year.

Very truly yours,

  
Tony Warminski
