Dear Mr. McLeod,

= Herewith the Frame-Up you ordered, thanks.

Oswald in New Orleans is not on that order form we made up years ago because we then had ~~not~~ been able to make it available as a quality, well-bound and durable xerox edition. At my age (I'm now 81) and in impaired health this is the only way we can continue to have it and the first of the "hitewash series available. *at \$22.00 for either one.*

Of the ~~recept~~ records you would like, I never established any such files because that was not the direction of my research.

While I do not know what their capability ~~now~~ is for making copies, I do know that the Assassination Archives and Research Center, 918 F St., NW, #510, Washington 20004, does have an extensive Oswald-Mexico file. If they have no staff now they would not be able to copy now. They would probably, although I do not know, permit someone interested to do the copying for himself.

As I think ~~back on~~ self-publishing, it is most important to be able to pay the printer and then to be able to distribute the book. If they sit in your basement or garage they do no good. Distribution is a real problem.

I appreciate the kind comments in your letter.

The last address I have for Jimmy Ray is, and use his number after his name, 65477, 7475 Cockrill Bend Industrial Road, Nashville, TN 37209. That is the address on the pen.

I have not heard of his being shifted after I last heard from him.

If you do self-publish, I hope you can think all the problems through in advance.

Thanks and best wishes,

Harold Weisberg
