My dear Harold Weisberg,

goadfly here. ~~your 20 plus-year-old companion~~

I have two questions:

1. When and by whom will Never Again. (There are already 4 books listed by that title.)
2. Where is the documentation for your statement in Case Open (p. 109) that the police found live ammunition in the Parris garage? (If the evidence is in any of your previous works, I missed it.)

We each have our pet reasons for being furious with Posner. Two or three of mine appear on pages 169; 224; and 410. In the last I conclude that Posner wipes out all that went before. He states the "single bullet theory" for the Commission was a "scenario."

There is another problem. As the debate continues so much disappears from the argument, e.g. Bonnie Ray Williams and the "Chicken bone story." Williams at his lunch in the so-called "Sniper's nest."

But I must not tire you

Sincerely,

Joseph Schneider
