

is highly suspicious of how you ^{now} acquired all the thousands of documents you have. Doesn't he ^{now} have the years of hard work and lawsuits it took you to do that? I am very anxious and curious to know your side of this story and perspective of this whole Livingstone affair. If you could explain this, I'd be grateful.

I see that there will be a compilation of Whitewash 1-4 in the bookstores in Dec.

I know that you won't like this question, but do you have any word on when your new book is coming out? I don't mean to annoy you and I won't ask you again, it is just that I am very eager to read your new work as I feel that you are the most knowledgeable authority on the assassination.

Did you see the PBS documentary, "Who was Oswald"? They showed a photo of Oswald and Ferris in the Civil Air Patrol and this proves Posner wrong in his contention that they did not know each other. If you saw this show, I was wondering what you thought of it.

I have also bought Groden's new book, "The Killing of a President". Disagree or not with Groden's theories, this book is an impressive photographic history of the assassination. What are your thoughts on this book? Have you seen it?

In closing, I'd like to say that I hope that you and your wife are well. I've sent more clippings as I've thought they would be of interest and these recent books and allegations have me profoundly wondering what your side and perspective is. I don't mean to take up your time, it is just that I idolize your work and achievements and it hurts me personally to see people like Livingstone libel you in print.

Sincerely,

Scott Wilson

P.S. Would it be possible for you to furnish me with Prof. Wrone's address? I'd like very much to write to him.
