Dear Mr. Krubsack:

Books ordered total \$75.70. Your check is for \$66.20, so balance due is \$9.50.

Your adder must operate the same as mine: When it gets into the higher realms, it tends to start deductions!

Thank for the order and here are the books.

Lillian Weisberg

Lillian,

Sorry about the delay in payment. I found this bill in the last book that I read. After reading them all I felt obliged to write the enclosed letter to our local editor. Keep up the good work. You two are heroes for thousands of Americans who retain some semblance of conscience.

Independent investigation needed on JFK murder

To the Journal—The murder of President John Kennedy and its subsequent "investigation" haunts us all as a nation, and it will continue to do so until we know the truth about this tragedy.

Anyone who's willing to make the effort, who's able to read, and who can exercise the basic fundamentals of logic knows that the Warren Report (along with its supporting documents and evidence) proved, beyond a doubt, that Lee Oswald could not possibly have done what he was charged with. However, the Warren report officially concluded just the opposite. As a result, hundreds of spurious theories have emerged concerning the death of JFK. These theories do our nation a grave disservice and serve only to obfuscate and derail our attention from the questions that we, as free Americans, should focus upon. They are: How and why was this gross miscarriage of justice foisted upon us by our own government in a country we presume to be free and democratic? Why are we still denied a proper investigation of those tragic events? Why is other important information still being withheld despite the Freedom of Information Act?

A wise person learns from the mistakes of others. The rest of us should, at least, learn from our own mistakes. Before we repeat the mistake of solving a crime before it is properly investigated and before we jump on the latest bandwagon of deceit, Oliver Stone's movie, JFK, we should remind ourselves of what we already know. We know that our government has repeatedly lied to us and, therefore, cannot be trusted to investigate itself.

If we are indeed a free and democratic nation, we deserve a competent non-governmental investigation into the events surrounding the murder of President Kennedy.
