Dear Harold:

Let me just tell you, thank you for everything you did and said. You bring a new meaning to the word gracious. Your kindness and gentlemanly manner are qualities I would like for my children and myself. You have created and left for me a pleasant memory that I will carry with me always.

You are an example and an inspiration to us all. Your works are testimony of what is good in this country and what can be accomplished by an individual and his spouse.

It saddens me to hear of your health problems. Please know that my wife Barbara, my children and myself will pray for you in an on going basis that God may heal your body. Regardless of how you feel about prayer, I just want you to know that we care about you and your wife.

Once again thank you for all of your help, and may God bless you always!

Gratefully Yours,

*Mike Ray* :)
