Dear Mr. Weisberg,

You are wonderful to write what you have about President Kennedy. Found your address in High Treason and had to write to you, the first letter I have sent to an author.

On December 30, 1991, two weeks ago, I was visiting a friend who has an older brother. My friend and his brother had just seen the movie and we talked about it. The brother had papers from November 22, 23, 24 and 25, 1963 along with Life and Look magazines. Unreal the lies, and the lies since then. I am 40. Seeing those papers was like getting run over, they were amazing.

Found ~~the~~ several of your books, Whitewash: Warren Report in hardcover and Whitewash: FBI, a beat-up book at the library. In the 1980's I read Coup d' Etat in America; Heritage of Stone; Presumed Guilty; The Oswald Affair; Conspiracy; Crossfire and Six Seconds in Dallas and recently Plausible Denial. Reasonable Doubt also. Have not found any of Sylvia Meagher's books at libraries or bookstores.

Saw you on Turner's movie on Arts & Entertainment and have seen you several times on the news; and no, I do not believe Cronkite or Rather, about anything.

Mr. Weisberg, are your books available? Do you sell them? I would like to buy them.

Thank you for printing information about President Kennedy and what the government did to him. Also the truth must be known about Robert Kennedy and Martin Luther King.

Also if you have address where I could write to get books, newsletters, articles or other information about the murder.

Typing this and listening to Mark Lane on radio, he is here tonight and tomorrow.

Thank you for your time Mr. Weisberg and thank you again for all of your work.

Sincerely,  
  
Dave Kessel

Nothing is the same that they taught us in grade school - not just about President Kennedy
