Mr. Weisberg,

I look forward to reading Post Mortem; the other book I've ordered is for a friend who was good enough to lead me into a better understanding of the JFK assassination.

It would mean a great deal to me if you could sign the books somewhere on the inside cover, since I consider your work on the JFK matter to have been a true pioneering effort. If you consider this request too frivolous I will understand.

Sincerely,
Keith Durick
