

4/1/92

Dear Mrs. Moyer,

Thanks for your letter of the 26th.

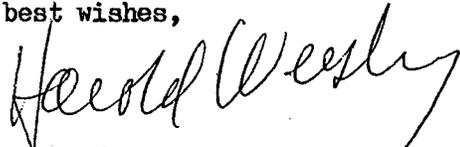

The list of our books is enclosed.

You are correct in believing that the still-withheld records cannot be expected to hold any significant new information about the assassination.

Oliver Stone exaggerated, misrepresented and often lied about these records to promote himself and his movie, saying that "all" was withheld while declining to make any use of the quarter of a million pages of them I got through about a dozen FOIA lawsuits.

The truth is that the crime itself was never officially intended and was never intended to be. It is more likely that any disclosed files will in varying degrees reflect this rather than holding the smoking gun Stone so often suggested.

Thanks and best wishes,

Harold Weisberg
