Mr. Harold Weisberg
7627 Old Receiver Rd.
Frederick, MD 21701

Dear Mr. Weisberg:

In recent years I have become a student of the John F. Kennedy assassination. I have seen the Arts and Entertainment documentary "Who Killed Kennedy?" and read High Treason, Conspiracy of One, Mafia Kingfish, Rush to Judgment and most of the major books on this subject. Most of these sources give high praise to you, because of your Freedom of Information Act suits.

I was particularly interested in the Kennedy death certificate, which places the President's back wound so low on the back. This will be interesting when Dr. Humes and Boswell's article comes out next week in JAMA.

Mac Kilduff now lives in Kentucky. Recently he was on WHAS 840 AM with Jim Moore, Jim Marrs and Judge Burt Griffin. It was amazing that Kilduff agrees with the Warren Commission, except that he says that he thinks "there were three bullets, three hits". That is a pretty big except! He also stated that the reason he pointed to his right front of his own head at the death announcement was that he had a cigaret in his left hand. Judge Griffin stated that he understood that Robert Kennedy had JFK's brain, and Jim Moore stated that he did not believe in JFK conspiracy, but that the evidence points to RFK being a conspiracy, including naming Thane Caesar. Jim Marrs stated he felt between 4-9 bullets were fired.

Since it is virtually impossible to get any of your books at the bookstore, I am sending you a check for \$50. I would like for you to send me any books or articles you have written that you feel would be helpful in my study of the assassination.

I understand that you have been ill, so I hope that you have been feeling better.

I have a great admiration for your work, and feel that you are a very brave and determined man to have spent your own money pursuing this case. I am a defense attorney, and I have an idea how hard some of your efforts have been.

If you have the time, I would like for you to answer a couple of questions. Are there any books that you especially recommend, and do you have an opinion on the book by Hugh MacDonald, who claims to have met the unidentified man the CIA originally said was Oswald in Mexico City? I enclose a SASE.

I would also like your opinion on Jim Garrison. I understand that you think his investigation was a fraud, but do you think it had any validity? On all the TV shows and books that you are referred to in, I have never seen a commentator ask you for your opinion on "what happened".

Thank you for your time. You are a hero of mine!

Sincerely,

William L. Neichter

P.S. Vincent Bugliosi is speaking at the KY Bar Convention in two weeks. Have any suggested questions I could ask him?
