Dear Mr. Weisberg,

I'm writing to you to say that I feel that all of your work, through the Freedom of Information Act, has been the driving force in enabling so many other authors, students of history and, just plain, curious citizens to research and study the facts, both obvious and hidden, of the John F. Kennedy assassination.

Since I was born in 1962, in the middle of the Kennedy Administration, I've always been fascinated by the assassination and all of the theories surrounding it. Now that I am older and have a little more free time than when I was in school, I've started to read and re-read the latest books on the topic. Most books are available to me because I work in the city's public library.

I hope that you don't mind if I impose upon you for your help in one

area and your opinion in another. First, I have been unable to obtain a copy of any of your works. I know that your most recent book is Complete Whitewash. Is this a continuation in your Whitewash series? or, is it a compilation of all of them? If I am able to obtain Complete Whitewash, would I be missing anything by not having the previous Whitewash books?

Secondly, what is your opinion of the plethora of Assassination books, particularly of the past 5 years? Are there any in which you would place stock? Most agree on conspiracy and cover-up, but differ on motives and responsibility (guilt). I'm sure you've heard them all.

If it is possible to order Complete Whitewash from you, please let me know. I would love to have <sup>you</sup> an autograph it for me if it's not too much of a problem.

Thank you so much for your time.

Sincerely,

Peter
