Dear Weisberg Publishing,

Would you please send me the book 'Past Mortem: JFK Assassination Cover-up Smashed!' I have inclosed a money order of the Book's price \$10.00. I was reading in the Book 'Reasonable Doubt' by Henry Hurt concerning the Single-bullet theory and the author refers to 'Past Mortem'. I'm very interested in the evidence that appears to go against the single-bullet theory. And as it follows, once the single-bullet theory falls apart, then the whole presentation of the Warren Report falls apart; there where at least two shooters firing at the motorcade and thus in all likelihood, if not in fact, a conspiracy. I congratulate Mr. Harold Weisberg for his efforts to show this to the American people and the World.

Please send me the Book 'Past Mortem' I'll be waiting.

Thank you
Tim Cassette
