Dear Mr. Weisberg,

I have just finished reading (and thoroughly enjoying) your book Case Open. Thank you for your timely expose of Case Closed. In addition, please accept this letter as a sincere expression of my admiration for all of your research concerning the assassination of President Kennedy. I admire your tenacity regarding the subject as well as your willingness to share your insight with the public.

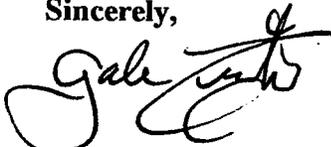

Although I am not exactly sure how to proceed, I would like to order one of each of the books you have written (including Never Again! when it is available). Also, if possible, I would greatly appreciate it if you would autograph one or more of them for me. I am a book collector and having an autographed copy of one of your books would at least be some consolation for the fact that I have been looking for over two years (to no avail) for a first edition of Whitewash.

Please drop me a line or phone me with the information on the price of the books so that I may send a money order.

Thank you again for taking the time to expose Case Closed for what it really is.

Sincerely,
