A Not-For-Profit Corporation

Harold Weisberg
7627 Old Reciever Rd.
Frederick, MD 21702

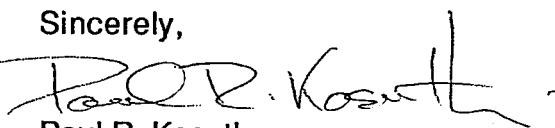

Mr. Weisberg:

This past semester myself and a fellow teacher, Dan Staser, have begun a research class into the Kennedy Assassination. This fall we have only begun to go through the mounds of facts, non facts, information and disinformation regarding the assassination and subsequent "investigations." Only recently have we begun to read your material (in Selections from Whitewash). It is refreshing to read about the passion and the energy you have devoted to bring the truth to light.

Brehm Preparatory is a private, non for profit school serving students with learning disabilities ages 12 to 21. We began this course out of a personal interest of Dan and I and as a way to engage our students in the active process of researching a very current and important topic. We view this as an ongoing project and a chance to be involved. To this end we are attempting to set up active correspondence with other researchers in this area. In addition to information about ordering your other books, we are looking to you for advice, direction and ideas. Our school is young but we are energetic and determined.

Please accept our invitation to correspond, exchange ideas and to help whenever possible. We are also on the verge of email capabilities if this is an avenue available to you. I am anxiously looking forward to your reply.

Sincerely,

Paul R. Kosuth
