Mr Weisberg -

Thank you very much for returning our letter and telling us about you and your work - it has proven to be an inspiration to both staff and students. You provide great dedication and insight to one of the most confusing instances in history.

Enclosed please find a check and order form for your library of work. Several staff and students are still planning a spring trip to the DC area and Don Staser may take up your offer to look through your archives and use the copier.

Sincerely,
Paul R. Kosutli
