

Mar. 10 1995

Dear Mr. Weisberg,

One day about ten years ago I was looking through my parents' books, I came across one that was an inscribed Christmas gift in 1967 from my dad to my mom. The book was *Whitewash II*. It intrigued me so I read it. I thought it was the most fascinating book I had ever seen! Like most kids in America, it's just a given that Jackie taught in your book! Since that day I have read massive amounts of material on the assassination and I've seen you on many programs. I credit you and *Whitewash II* for opening my eyes for the first time and getting my interest going. I thought that you must be a really brave man for writing a book like that! It's sitting in front of me now as I write this to you, and after all the books I've read since, it's still a favorite.

I know you have written many more books, but they're very hard to find. Can you help me in finding any of them?

I thank you very much for uncovering a lot of lies found in the Warren Report.

I am also very grateful to you for getting me started on the road to the interesting, although at times very exasperating life of an assassination researcher!

Sincerely,

Carla Van DYKE
