

Dear Mr. Weisberg,

Just a note to tell you how much I enjoyed your book Post Mortem. I've been interested in the assassination for a long time. There's one thing that I cannot get a handle on. Since no bullet passed through Kennedy's shirt and tie, was the throat wound caused by a bullet fired from the front a little higher than his necktie, because he is obviously reacting to a throat wound in the Zapruder film. Can you help me?

Once again, I thank you for your years of research and investigation. The torch may have been dropped in Dealey Plaza on Nov. 22, 1963 but it still burns inside me.

With great respect  
R. W. Ford.
