

Rt. 3, Frederick, Md. 21701  
5/4/73

Dear Mr. Morse,

You were kind enough to write Mr. Nash about your files with reference to our case and his assistant, Mr. Briggs, saw my wife and me about this thereafter. Later he wrote me to report that your file had been forwarded in November 1963. As you both told me, your file should be available to us.

Our lawyer has obtained from the United States Attorney in Baltimore several sheafs of documents that is, obviously and from internal evidence, very far from complete. There is nothing in these documents identified or identifiable as your files.

Much that because of our personal contact I know should be in them is not in all the delivered material in any form, not even by reference.

There is a letter with which you forwarded, on the date Mr. Briggs referred to, a few of your papers. That letter also offers more if it is desired. That letter makes clear that your file was not forwarded by you at that time.

This past Tuesday I discussed this with our lawyer, Mr. Clapp. I think you can understand that the amount of work required is more than he can find time for. He has asked me to ask you to see me so that we can get an idea of both the volume and the content of the file and, if you can recall after all this time, if you can make any suggestions that can be helpful to us in getting what we have not under discovery.

If you can spare the few moments that would be required so that Mr. Clapp can have this information, I will be in Washington for dental appointments on May 15 and 24. Each day I should be able to be downtown by about 10:30 a.m. I expect to be away all of the coming week. Because time is beginning to press upon us, the 15th would be better. Or, I'll make a special trip on almost any other day that is convenient for you.

There are some records in the material delivered to Mr. Clapp that you have not seen that refer to you and I think will interest you.

Thank you very much for any help you may provide.

Sincerely,

Harold Weisberg
