

# Oswald Fired Shots, Dallas Officials Insist

## Discount DA Team Theory

By PEGGY SIMPSON  
DALLAS (AP) — Key  
Dallas investigators of  
the assassination of Pres-  
ident John F. Kennedy  
here in 1963 don't believe

Dist. Atty. Jim Garrison's  
claim that Lee Harvey  
Oswald never fired a  
shot.

They also disbelieve the  
New Orleans prosecutor's the-  
ory that a precision team of  
guerrilla adventurers fanned  
out on the crest of a park to  
kill Kennedy and escape un-  
detected, until now.

"I don't think there's any  
question but that Oswald did  
some shooting, and indications  
are all of the shooting," said  
Dist. Atty. Henry Wade.

NEW ORLEANS  
STATES-ITEM

VOL. 90—NO. 298

FRIDAY, MAY 26, 1967

PRICE 10c

**RETIRED POLICE** Chief  
Jesse Curry, who drove the  
car preceding the President's  
in the motorcade, said there  
was no ruckus on the Dealey  
Plaza lawn preceding the  
shooting, as Garrison claims.  
He said if guerrilla gunmen  
had crouched behind a three-  
foot stone wall in the plaza as  
Garrison says, Curry, and  
Sheriff Bill Decker and Se-  
cret Service men could have  
seen them from the street as

(Stories on developments in  
the Garrison investigation and  
the discovery of a letter draft  
written by fugitive witness  
Gordon Novel will be found  
on Page 6B.)

they drove by. He said his  
policemen atop the railroad  
overpass overlooking Dealey  
Plaza likewise could have  
spotted any persons behind  
the stone wall or even behind  
the five-foot-tall picket fence  
which is 26 feet in back of  
the stone wall.

"THERE WERE people in  
the park and by the stone

wall but they sure weren't squatted down shooting, I'll tell you that," Curry said. "We just didn't see anything that would indicate that at all."

For eight months, Garrison has independently been scrutinizing the assassination, vowing to prove the Warren Commission wrong in its finding that Oswald alone killed Kennedy and that Jack Ruby also acted independently when he gunned down Oswald during a jail transfer two days later.

Garrison says he has uncovered a conspiracy to kill Kennedy between Oswald; a now-dead pilot, David Ferrie; a New Orleans business magnate, Clay Shaw, and others.

**HE SAYS THE** Central Intelligence Agency is concealing the whereabouts of the

assassins because they had been CIA employes.

"I never did rule out some encouragement of Oswald," said Wade, "but whether there was a conspiracy or an accomplice before or after the assassination is a matter of speculation. I don't know.

"I don't have any way of knowing about the CIA," Wade said.

But he said he was just as sure now as in 1963 that police had the evidence to send Oswald to the electric chair as the assassin.

"It was his gun, there were three empty shells by the window, he was seen in the window, his prints were found there, and everybody else was down watching the motorcade and he was upstairs," Wade said.

**WADE AND CURRY** said they looked but found no proof that Oswald and Ruby knew each other.

Wade said eight or 10 persons volunteered information that Ruby and Oswald were together on occasions but he said he could not vouch for the credibility of any of them.

A local lawyer failed a lie detector test about such beliefs and some of the other informants were alleged homosexuals or police characters.

Garrison said the assassins apparently used "frangible bullets," which he described as a type forbidden by the Geneva Treaty, that explode into little pieces and leave nothing behind to be traced to the gun. He said these bullets would be favored by forces working for an intelligence agency.

**A FIREARMS** expert here said a frangible bullet does indeed fragment into tiny pieces—but the shattering is upon impact, before any penetration. The soft, compressed graphite bullets are used for target practice and might barely pierce a tin can at 50 yards. The firearms expert said he knew of no bullet which combines the characteristics Garrison named, since soft-nose bullets which cause a gaping wound and much internal damage leave traceable elements.

The FBI identified a whole bullet found after the assassination on a stretcher as coming from Oswald's rifle and said fragments of a second bullet came from the same rifle.

Curry said Garrison's probe hasn't refuted any Warren Commission findings, as far as he is concerned.

"It's difficult for me to believe that a group of men sat around and formed a conspiracy and carried it out to assassinate the President. The evidence doesn't show that to me," Curry said.
