LOS ANGELES, July 2

(UPI)—Lloyd N. Morrissett, an 81-year-old UCLA professor emeritus, would like to know why he is on the list of White House "enemies" that John W. Dean III gave the Senate Watergate Committee last week.

"I never was an activist at any time," said the retired professor who taught education students for more than two decades. He says he voted for Herbert Hoover twice and contributed to the campaign of California's Republican Gov. Ronald Reagan.
