## Dies Heeds Barry SOS, Plots to Elect Defeatists

By Adam Lapin

(Daily Worker Washington Bureau)

WASHINGTON, June 12,-Rep. Martin Dies has decided to enter the 1942 Congressional elections in a large-scale drive to protect defeatists running for office and to smear win-the-war candidates.

The Dies Committee was extremely active in the 1938 elections and conducted hearings designed to discredit progressive and New Deal candidates.

The report has been current for some time in informed circles here that Dies would throw himself with even greater vigor into this year's elections as soon as he is finished with his own primary which takes place on July 25 and which has been occupying most of his time.

But the first public revelation that the Dies Committee is now mittee is now investigating at my sional defeatists was made by Rep. William B. Barry, prominent America Firster who is running for re-Queens.

## THE SAME TECHNIQUE

This was the technique the committee followed in the 1938 elections when it held hearings for the sole purpose of defeating former Governor Elmer Benson of Minnesota, Associate Supreme Court Justice Frank Murphy who was then Governor of Michigan and other candidates who supported Roosevelt administration.

laying the groundwork for a smear request, and that of others), is Dies Committee, but they can ent called. hardly afford to permit the Texas Congressman to campaign for the Rep. J. Parnell Thomas (Feeney) defeat of Administration-support- of New Jersey, leading Republican ed candidates.

The only answer is a resolution repealing the continuation of the committee. Increasing House opposition to the Dies Committee in recent months shows it is possible that such a resolution can be passedparticularly if it is proven that Dies is cooperating in the election of defeatist candidates.

## HITLERITE LINE

Dies and his committee have continued to follow the Hitlerite antito be the main election issue of the leading defeatist such as Rep. Barry or libel and whom the Dies Com- It is considered likely that the Both Dies and his chief associate

single out several key congressional of Alabama, were singled out as contests as worthy of hearings de-|men who should be beaten in the elections in a list of 23 leading obstructionists in the House and three in the Senate prepared by the UDA in collaboration with the New Republic.

> This may provide Dies and Starnes with a personal incentive for starting their intervention in the 1942 Congressional elections with an attack on the UDA.

Dies Committee members and the ranking staff employes were not available for comment on the Barry statement and on the Committee's tervention in the Congressional election plans—at least not to the

Starnes, who is acting chairman of the committee while Dies is campaigning for re-election in his own Administration leaders in the district, was "not in" or "in con-House supported extension of the ference" every time this correspond-

Telephone calls to the office of member of the committee, were also to no avail.

Rep. Thomas's secretary said 'just a minute" when this correspondent called yesterday for the first time, and apparently after consulting her boss, announced that the Congressman was "busy." Another call this morning produced the brusque reply that Mr. Thomas will not be in all day."

A girl at the Dies Committee office said that Robert Stripling, committee secretary, "is out of town." A secretary in the office of J. B. Mathews, renegade liberal and chief committee investigator, trotted out the "Just a moment line" and then said that "Dr. Mathews is not in, and I don't know when he'll be back,"

The emphasis was on the "Dr." since this correspondent had referred to Mathews simply as "Mr."
