Warning: Dies Stooge Poses as 'World' Reporter

LOS ANGELES, Dec. 1.—If it's for the Dies Committee, it can't be too low.

Using that as the slogan, investigators for the un-American Committee have been impersonating Federal agents, newspaper reporters, private citizens, in their efforts to "dig up" material against West Coast labor leaders, Communists and liberals.

Rena Vail, West Coast Dies Committee investigator and follower of Trotsky, it was learned today, has been impersonating a People's World reporter and approaching readers and sympathizers of the paper in an effort to procure what the committee would term "damaging" evidence.

Readers of the paper are warned to ask for People's World credentials when approached by such "phony" reporters. Mrs. Vail was expelled from the Los Angeles Newspaper Guild several months ago for disruptive activity.
