Having
finished my
3rd tour of
duty in

sitting in the guardhouse
where a visiting officer
has set himself in the lobbying
business. I remember you
admonition + am getting a hair
cut. I should be in bed, because
I'm tired, but I'm almost
asleep. I had trouble falling asleep
last night, & the last one I
don't believe I got 15 continuous
minutes of sleep in the 2 hrs I
was out. After my back hurt
so much when I did get up I
almost couldn't make it. I crawled
in the way to the ~~guardhouse~~
guardhouse & it really almost
knocked me down. Next time
with the talk last. I'm feeling better

now. And I have only 2 more
traces of duty left. I have just
been forbidden of there are 2 hours
left in which I'll try to rest.

I feel a lot better, & I anticipate
no further difficulty in my guard duties.

Apparently though, as soon as
some of guard will be leaving in an
overnight bivouac. That should be fine.

Anyway, dear, I'm quite happy
you were here before I did guard. As a
matter of fact, we went on the alert
yesterday.

I have heard from Al, and told
you, & Brava, that I find time to
answer them before mail goes (3 pm)
and otherwise their letters.

Be careful how much of
this & the yesterday letter you pass on
to M. I don't want him to get excited.

Love
H.H.H.

Hi Bill

Wish, Willie, Max

How's the good. I have finished my
 1st scheduled guard now. I be-
 lieve me, baby, I'm all in - and do
 I ache & pain! But because I'm
 on guard, I may be spared the an-
 niger because the rest of the boys want
 m. Even if I have to take guard
 again for the next 24 hours, I'll be
 better off. I honestly think I would
 give up on a hike.

I'll write, of course, but I've been
 on the letters from Al W + Diana.

Please get me that circular as
 soon as you can. I may need the
 knowledge now, at the pace we are going.

Really, does Miss I can keep up
with it. Again, Miss my intention
a not you should talk to Miss
Living our with Mr. Personally I
feel it would be good to do so, but I
abide by your judgment. If you think
yes, & the Misses after making it over,
that I might be able to do something, then
I'd like very much to see Miss as soon
as possible in N. Y. We are in the city
now, but I don't think it will last for
long, & I'm beginning to feel it leave off
me. If I when the letter is left I might
be able to get to N. Y. C. Anyway, let me
know soon, dear, because my new days
like the past will be very bad.

I got no letter from you today. I
hope it's just that ~~you~~ the mail
was delayed, not that the trip was too
much for you.

Love
Hilda
