Honey -

I have begun to go over the CR index to make up + clip the CRs. Enclosed is a slip with the page number of those I want clipped, and attached is the description, covering vol. of the index. The index is sometimes wrong, so look at the stuff you clip. Also, the index frequently gives only the first page. If I can finish it in time do enclose vol III. Don't forget to check vol II.

Jim at work, and may not have a chance. We haven't all written again later.

Finished Vol IV of Study.

Am certain need those references  
and beginning page only. Also,  
on this debate, run through  
appendix in that and next couple  
of days to see if anything  
was inserted, a hold for revision  
& inserted, etc.

Must. This should be  
your own name Lebensmann.

Nothing is new here. If  
in not stated - and I hope I  
get another weekend - in before I  
am - to have this weekend.

How are you? Let me know how  
you make out with the data. I'll  
write again later today. Love it all.

Home letter

Honey,

I had expected to be able to write you a fairly long letter this p. m. but I may not be able to. I'm on duty, & I have a bus slip to get my shoes repaired. As I'll start to bed as I get the opportunity, if I don't lose the vein.

I was surprised to get the letter you mailed yesterday post-marked 1:20 p.m. in today's "early" mail. That's better than it has ever been before.

Love & hear about Clarence's accident.

Let me know about it as you get  
details. An accident from a  
wheel or jeep might be quite bad.

I file it as the damage in  
Bob's accident was vehicular &  
that it was Bob's fault?

I'd be curious to know how  
Walter makes out in his Army  
i.e. He's slow, I wonder if  
he'd be able to do much or a with it.

Good to know of your nice  
return. It should have a good  
effect on both her & Mrs. W.

Your lack of comment on the state  
of this message leads me to believe that

are okay?

Is Buel's new trouble another  
attack of the old? My kello to  
him if you see them this —  
month - I'll be here, I hope.

This full-tax conference is something  
new to me. Have heard of it before.  
to get me a report on it if it  
is interesting, will you please?

Jim worried about his health,  
too. It was pretty punk Fri.

Wrote for the shoe trees. I  
asked you to send just the  
one good pair. So return the  
other pair unless they will stay

in my Army shoes without showing, in which event I'll keep them too. If you didn't send me my good pair, the ones I bought in Beek's that Saturday afternoon, please send me them. I want them for my dress shoes.

Beek would be a good one to feel out in some ways, if they were not chucked up on!

I'll write again later if Olga Chase, I'd expect to. Maybe I'll mail this ~~letter~~ if it can catch per. mail. Love Harold

3/9/43

Hello again,

I'm now close to the end of my shift. I'm off for chow & the day as soon as my relief comes.

After much of the counsel of friends on the outside and inside plattered off my back - you remember - write it down, etc. Bob, Bob, Bill & Lyette. Bob Black. I often was always saying giving - it suddenly it seems the last night that the two things from which most of the recent indications suffer, is acute loneliness of various sorts and an equally acute lack of understanding & advice. So, I thought I might write some notes from

Time to time on various things,  
we are in two opinions, etc.,  
and later perhaps tie them  
up into a length article or  
handbook. It depends on how  
long I stay here & how much  
free time I have when a rest  
I do. I'd think I am. What  
do you think? My relief  
has come in & I've gotta go. But  
if you ~~would~~ suddenly start  
getting scraps of paper with  
heads on them, please type them  
up & put them aside. And make  
any word you can't decipher & feel  
translate. Regards to Maie & his  
brother. Love you all. Wood
