

Honey - just a note  
before retiring  
to let you  
know I'm  
okay. In fact,  
I feel better

Wednesday night

at this moment  
than I have  
since the first  
couple of days  
at Dix. I'm

still cold - when, in fact, the lake is  
frozen several hundred feet from  
shore in spite of the high winds &  
waves. The ground is still thick-  
coated with ice (I'm proved of  
myself - I didn't feel bare  
today) but it must be dry  
here. That's probably why I  
feel so much better... I noticed  
the papers & radio in this section  
have given Mac a real  
beak, making it clear that  
he didn't get the committee  
job because 1) he is the "love"  
ALP member, 2) he is the leader  
of the fight for the anti-fell  
job & anti-lymph pills. Both  
some time they made it clear

clear that he was "entitled"  
to decent responsible com-  
mitted assignments. I  
really believe that if he got  
the same press elsewhere  
he has done himself more  
personal good than getting  
on the committee. Of course,  
getting on the committee was  
not for personal gain, but to  
fight for ideals... I have become  
rather friendly with my oppor-  
tunist mate, a nice young  
Chinese boy... well, I guess that's  
all I have time for. Tell Marie  
& Jimmy I said hello, & let  
me know how he feels about  
the recent developments. I am  
returning some of the things I  
took with me. How are  
you? Of you have written in me  
I haven't gotten the letter, giving  
you an idea of how long it takes mail  
to get here. I don't know when you'll get the letter.
