Dear Amy,

In today's mail I have ABC's Check No. 397421 in the sum~~ps~~ of \$85.50 and made out to me with an extra "s" in my name.

You may recall that I was in Dallas on a trip to L.A. and San Francisco. When I was unwilling to undertake the extra travelling and travelling costs you assured me the half to Dallas from Washington plus the extra cab fares to and from the Washington airport would be repaid.

I guess this is about the same air fare as what you ~~brinige~~ originally offered, to pay for my New York to L.A. fare, by air.

I did not then go to L.A. because the extra time precluded my returning by the required time and because I was certain the extra travelling would be too tiring.

I did not ask for cab fare back from Washington because I had made arrangements for my lawyer to drive me home and debrief me on the results of the investigation on which I'd been engaged. Whether from New York or Los Angeles that would have been the same because he had to know the results of my work. Thus no charge.

However, when I make the L.A. trip up, which I still have to do, I'll have a cab from here to the airport and then one back. There is no aircab or limo from this far out of Washington. It is \$45 from here and \$55 to here because of different rate structures.

We can simplify this into the cost of a one-way ticket from NYC to LA plus \$100 for cabs plus whatever you allow for tips.

I'm sorry I had no book to promote. David Hartman was very good. It would have sold copies.

Oh, well - it wasn't a total waste. I got to defend the FBI while I have them in court- kicking and screaming but firmly in court.

Best wishes,

Harold Weisberg
