By accident, I may have found what might be the enswer to Dodd's silence on the Butler testimony, who he never disclosed it. I doubt it is because he didn't credit it. I cannot disclose my source, but it is someone once close to Dodd. At about the time of the Eutler testimony (and I em not suggesting any connection with it, for I do not believe this exists), he told my source, in greet perturbation, "My God, Caveld was" either connected with or an agent of or amployably "both the TBI and the CIA".

My source had no way of knowing Load's source, for me did not disclose it. In fact, he didn't indicate it in any may.
