Dear Dr. Aguilar:

Thanks for your telephone message concerning Tague and Posner.

While I agree with you the witnesses can be checked and their memories compared with Posner's attributions, etc., I believe that this is endless and as Abraham Lincoln would say a rat hole to pound sand down--endless work with no result. It would consume your time and energies on a tertiary aspect of the book and, what I perceive to be the crime.

I would like to suggest that Weisberg's original manuscript on Case Open be used. I read it thoroughly in the process of his writing it and believe it contains the hard core facts to absolutely demolish the Posner book and Random House and the boot licking media. It is truly amazing what Harold did to Posner in that manuscript and C & G in their mindlessness took only 20-25% of it and not the best parts at that.

With that manuscript you can hammer Random and Posner into pulp. You could use your energies where they are most effective, in the actual combat, rather than assembling witnesses who would be difficult and time absorbing to control and manage and find and organize and all the rest.

I think this is the best route and would be stunningly effective.

Many could join you from coast to coast in the onslaught

Regards

Keep the faith
