

J.D.W., Home & operating by phone from the flat of the back. 10/22/75
you will be seeing some Anderson (Whittan) whomas I suspect
help you can get this. I also suspect who credit to me. Les needed
help on another story I think he may yet do. He phoned me & then
came to see me in the hospital Sunday, with what has been leaked
to him. I saw in it what he did not suggest an approach of a
certain meaning, two days of establishing, he tried both ways
worked, & we have thus located perhaps Thousands of pages
of FBI material not given to the W.C. Plus those in the FBI
used in on it & not figuring in W.C. files. They are also going
big for the FBI's editing of LHO's notebook to eliminate
reference to Hosty (WW II & Agent Oswald). They are after
Gemberling, who did it. They will, I think handle the FBI/
"explanation" as I suggested. Anderson & Les are working back
to peck on two stories & ~~the~~ I've given her leads the likes
on still others including who to talk to on the destruction
of the LHO - Hosty letter.

I wish I had a record of that Sunday conversa-
-tion. My tough letters got through to him, he read me
rightly and I don't think I've ever had as high praise for
which there was no need for anyone. He has been saying
the same things to Dan, who phoned me in history.

If you see my ~~at~~ work uncredited understand
that I told Les of known facts hang ups and use
with credit. Thus a key will say not be found in the
Archives what I've published in fact in it. I did also
tell him that while I believe Jack will not, it will seem to
ask acknowledgment.

Best,
J.D.W.
