Dear Emory,

No, it is poverty, not tricks, that impels me to use this paper. Also, living in the country, it avoids the need for standing and watching it burn. I have never sent it to you with a code on it, or a hidden message. What you did is very interesting. If you do such a thing again, why not make pictures of what can be photographed, put identifications on, etc.

I will try and get the pictures you want. Also, ask Sprague for them. He should be able to supply them. I do not promise; I will try.

Stay close to the arrests and suspects business. Make your requests of the future more specific, giving less chance for evasion than you gave the Dallas police. I am anxious to get those names, if a record exists. It is possible that outside the police department there is none. The papers claim ~~not~~ to have them. I am anxious to get the names, if it is at all possible.

Please excuse the haste. And again, many, many thanks.

Sincerely,

Harold Weisberg
