7627 Old Receiver Road  
Frederick, MD 21701

Dear Mr. Weisberg,

Enclosed is our copy of the book JFK: First Day Evidence which I told you about on the telephone, as well as materials from the FRONTLINE press conference, and some information about Posner. I am interested in your analysis of First Day Evidence.

I have been trying to contact John Newman since receiving your message, but to no avail. He is on leave, and no one answers his home phone. It is possible, if not probable, that he is in Dallas for the ASK conference.

The National Archives says their Zapruder negatives are all black & white, and that prints can't be made that include the sprocket hole area.

Posner was on several programs recently; I'll try to get transcripts. Please let me know if I can do anything else.

Sincerely,

Jonathan R. Meyers,  
Coordinator of Research  
and Communication, AARC

Please do not advertise this but I'm working away on a lengthy addressing of the Livingstone killing of the truth. In book form but no likely interest as a book. I am finding more and more missing, and this I suspect but will never be able to prove was by the cop working for him because it could be devastating to what they were up to all are in reduced form on the book, that crap fed them by Rothermel et al.

All my H.L.Hunt stuff is missing, as is most of my Patchen file and all the clippings I had of those firings and charges with stealing.

In my King of Kings for I found a letter you got from DJ that makes a references to the charges being filed. But I'd like as a minimum some newspaper stories on those men and charged as thieves. I believe Currington is among them. *get names in King stuff. Don't need.*

If Hirschkop still represents the song or had a friendly relationship with them there may be some interest in what I am doing in haste. Livingstone was pretty nasty about the old man and about them. I'm rushing but I've got about 30,000 unread words on paper. I'm addressing what he wrote about me right now.

Please thank Jonathan for the package here today. The Posner stuff is along the line I was expecting and am glad to have. I'd like to know whose notes they are on that Lexis stuff if he knows. Please tell him also that through Horley I got a message to Newman. I think you may recall some ways in which I might help him and that he says what I've been so alone in saying for so many years! Glad to have your prepared statement and will read it and the rest he sent when I can. I did not know there were such hearings or that Conyers is the chairman. I think I'm in a position to make an authentic sensation of them but as you know, I can't get there. If as I hope Newman can come up I'll discuss it with him. Great Horley story! Hoping to get copies for DW and others.

What is interesting in these disappearances is that when I thought I might have some in the old Ray file, which is physically separated and I never explained to those with FBI interests, a fat file remains there. But it is not on the arrests. Only on the Foreman part, the wiretapping case. I have a few hours of a Hood student who had the legs I do not and she has been a good searcher. A blessing now!

Please also tell Jonathan, who says the Archievs told him all the Z negatives are black and white and do now show the sprocket-hole material that the original slides prepared by LIFE are in color and do have that material and to please copy from them. If in question it, please suggest to them that they look at CE 885. Or just show this to him. Again, please thank him and I remain interested in P's former <sup>former</sup> ~~former~~ clients if they can be located. This Lexis stuff has him with different explanation for no case at the later and does suggest what I suspect, that he used that to get the book. Who paid?

Best

*Harold*
