11/2/93

Dear Jonathan,

Thanks for the pictures, they are mine, and for the other enclosures in your 10/28.

I have no interest in dumping Posner but I <sup>am</sup> interested in what he says. I <sup>have</sup> no interest in his Schein exchanges other than in the threat but I did enjoy what he wrote Jim about me that is other than he says in his book. He could say other interesting things,

I do not know how to do anything about any NBC miniseries on him until we know <sup>tho.</sup> what it says. I've put what I have in the manuscript of a book that is being retyped and in general I prefer a definitive response, not possible in sound bites, to that kind of limitation in any medium.

Even the things I told you I'd like checked from the standard indices are or limited usefulness without a proper context.

I've not had a single reporter ask me about what he said about me or about his book.

If Jim wanted an opinion other than mine on that book. Wrono has a duplicate of the rough draft and has read it.

In the event I run into trouble with my publisher, not impossible, the best answer I know to that pig is the fastest possible publication of that book and the maximum attention to it.

I have learned nothing further about his background than I told Jim and maybe you.

I assume the NBC miniseries will be the usual major-media whoring with out history.

They have no other use for him.

I've heard that the CBS special is going to use him, too.

One of my objections to all the theorizing with which I do not agree is that each one can be confronted with <sup>it</sup> them, as Posner confronted Wecht on CNN. Nonetheless Wecht did rather will on that.

I will be very interested in transcripts of all those shows at least for the historical record and some for possible additions to what I've written.

I'll say nothing about Sysop (what does that mean?) and I knew he was on Compuserv.

If you can use more of those envelopes I am sure we can find another box of them. Maybe also some plain ones not quite that large. They'd have to be looked for in our basement and they would be in sealed cartons.

Thanks and best wishes,

*Hard*

Harold Weisberg  
7627 Old Receiver Road  
Frederick, MD 21701

Dear Mr. Weisberg,

Please find enclosed the materials in which you expressed interest. In addition to your photographs, I have sent you some correspondence and notes(?) from Gerald Posner, and dialogue he engaged in on **Compuserve** which is a computer network. Some of these files, those marked **Section: Sysop Section [0]**, are private exchanges that only I and a few other people have access to. Because of this, you may want to avoid revealing your possession, and/or their origin (me). Since Posner himself pops up on the network on occasion, (in fact, he surfaced while I was getting these files for you), I could direct questions to his mailbox, which could originate from you. In other words, I could attempt to engage him in dialogue following lines of inquiry in which you are interested, without using your name of course. Please let me know, if you want me to pursue on-line discussions with him.

I also want to bring to your attention a story which I heard is in the new U.S. News and World Reports. They are claiming NBC is planning a mini-series on Gerald Posner and his book. I would very much like to see you develop information on his background that could be made available to the public to help put this project in a proper context. It may be especially helpful to Dr. Cyril Wecht for his appearance on Crossfire, if you made any additional discoveries concerning Mr. Posner's background. I would be very interested in acquiring *anything* you compose based upon your research. I will continue to provide you any correspondence he generates or any other relevant material.

It was a pleasure to speak with you again, and please call or write me directly if I can be of assistance. I would also be interested in your feelings on countering the proposed NBC miniseries.

Sincerely,

Jonathan R. Meyers,  
Coordinator of Research  
and Communication, AARC
