Mr. Weld said the Justice Department had completed "virtually all" of its inquiry by the end of 1983, but delayed its response to the House Judiciary Committee "pending a complete review of all public comment" on the National Academy study.

"We have considered the review of all correspondence to be potentially productive," Mr. Weld said. He added that there was no "persuasive criticism" of the academy report, so the Justice Department has accepted its conclusions.

Others, including Rep. Louis Stokes, Ohio Democrat and chair.

Others, including Rep. Louis Stokes, Ohio Democrat and chairman of the defunct assassinations committee, have stood by the committee's conclusions and the acoustical evidence presented by the independent team.

Mr. Stokes could not be reached

the public blasted the department's response.

"All these years later we find out they've been doing nothing," said Kevin Walsh. "Members themselves

> had faith that the Justice Department was going to pursue this, and now we see all these years later that their faith was misplaced."

Mr. Walsh noted that the department did not follow through on several parts of the select committee's recommendations.

The "most egregious sin," he said, was the department's failure to obtain and analyze a bystander's film shot just minutes before the Kennedy assassination. The film by Charles L. Bronson scans the sixthfloor window of the Texas School Book Depository, where Oswald was positioned.

Mr. Weld wrote that the department was unable to obtain the film from the owner.

The Justice Department conceded that the report to Mr. Rodino's committee was "long overdue."

Mr. Kartsonis said he has conducted research and delivered lectures on the Kennedy assassination for more than 15 years. He, too, criticized the Justice Department's inquiry, saying investigators failed to answer the select committee's questions.
