Mr. Rihhard Bernabei Classics Department Queen's University Kingston, Ontario CANADA

Dear Dick:

Your letter arrived as I was about to leave. I do think in Canada an approach to the Cubans might work where it would not in the United States through the Czechs where it would not work. They should have a considerable amount of interest because, to the best of my knowledge, every single Cuban, if not peripherally involved, is an extremist, most have connections with Batista, and the superficial indications are that the Kennedy assassination could have been a backfire of one simed at Fidel.

The name is "Duarte", not "Durate", which may be a type.

Fensterwald wrote you at my request suggestion. I have doubts, but am cooperating.

If, when you approach them, they are receptive, ask them about one Jose Morejon, also known as Jose More, aka Joseph Moore, aka Jose Dearing. I think he is the Joseph Moore in the Bolton 4 document, page 101 of OSWAND IN NEW ORLEANS.

Sincerely,

Harold Weisberg

I could like your thoughts on this measured, for if it is fruitful it could yield some quite exciting menults. Do you think that I should try to each information from from the Cuban Consulhere in Canada? Letually, I have almosty rade a tentative at but establishing contact, but I have almosty rade a tentative at but establishing contact, but I have not yet had a response. I recently discussed the associantion with an ex-Ferce Corps which he wax is interested in Latin Carrier afficies. When he told he that he planted in a few assist to see the Cuban Consul in Towardo, I asked him to inform the Consul of by interest in the associantion, and to learn whether the Consul would be interested in sceing te. I hoped that if such a decting a new about, I sight be able to persuade the Cubans to co-counte simply by moviding information about the individuals that you are interested in. Surely they must have cossions on all of them and possibly photographs of some.

My Neace Companion has not been in touch with me since I last some his a comple of realist and, and I so not ours whether he has not seen the Compan.

I just received notice from Fermier all about the Counities to Investigate Assessmentions. If it recomplishes no some that improve the problems of limiton, it will be north it. Any ap, it sounds to note promising that Gough's Torranization".
